DETAILED ACTION

1. Claims 1-13, 17, and 18 are pending. Claims 1, 5-10 have been amended in this communication filed 07/02/07 entered as Response After Non-Final Action and Request for Extension of Time.
2. The IDS filed 7/18/07 has been entered and considered.
3. The 35 USC 112, second paragraph rejection has been overcome by Applicants' amendment and is hereby withdrawn.

Allowable Subject Matter

4. Claims 1-13, 17, and 18 are allowed.
5. The following is an examiner's statement of reasons for allowance:

Even though, the prior art JP 113'2166A- Fujitsu LTD, teaches a search key, an index file, an index table, and a database and registering as a key item in an index table when there is data already registered in the database, the prior art of record fails to teach accessing the first database in response to writing the first database identifier value corresponding to a matching key value into the third memory and accessing the first database using the pointer associated with the first database identifier value to access a database location pointed to by the pointer. Accordingly the invention would NOT have been obvious because one of ordinary skill could not have been expected to achieve accessing the first database in response to writing the first database identifier value corresponding to a matching key value into the third memory and accessing the first database using the pointer associated with the first database identifier value to access a

database location pointed to by the pointer, NOR would they have been able to predict the results, and as such, they would have had no capability of expecting success.

For these reasons claims 1, 5, and 10 are deemed allowable over the prior art of record, and claims 2-4, 6-9, 11-13, 17, and 18 are allowed by dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Fujitsu LTD (JP 11312166A) disclosed a key definition, an index key generation unit that determines a key value range of an item name based on a key value range of the output index key.
